

The background of the image is a close-up, high-resolution view of a marble surface. The marble has a complex, organic pattern of swirling, veined lines in shades of light beige, cream, and soft grey. The veins vary in thickness and direction, creating a sense of depth and movement. The overall appearance is that of a natural, high-quality stone material.

The background of the image is a detailed, close-up view of a marble surface. It features a complex pattern of light-colored, irregular veins and spots, primarily in shades of white, light grey, and pale blue, set against a darker, more uniform greyish-white base. The texture is organic and non-repeating, characteristic of natural stone.

The background of the entire image is a close-up, high-resolution view of a marble surface. It features a light cream or off-white base color, intricately veined with thin, flowing lines of golden-brown and tan. The veins are organic and non-repeating, creating a sense of natural elegance and depth. The lighting is even, highlighting the subtle textures and variations in tone across the surface.
